

RF Building Blocks

Wireless Data

Digital Voice

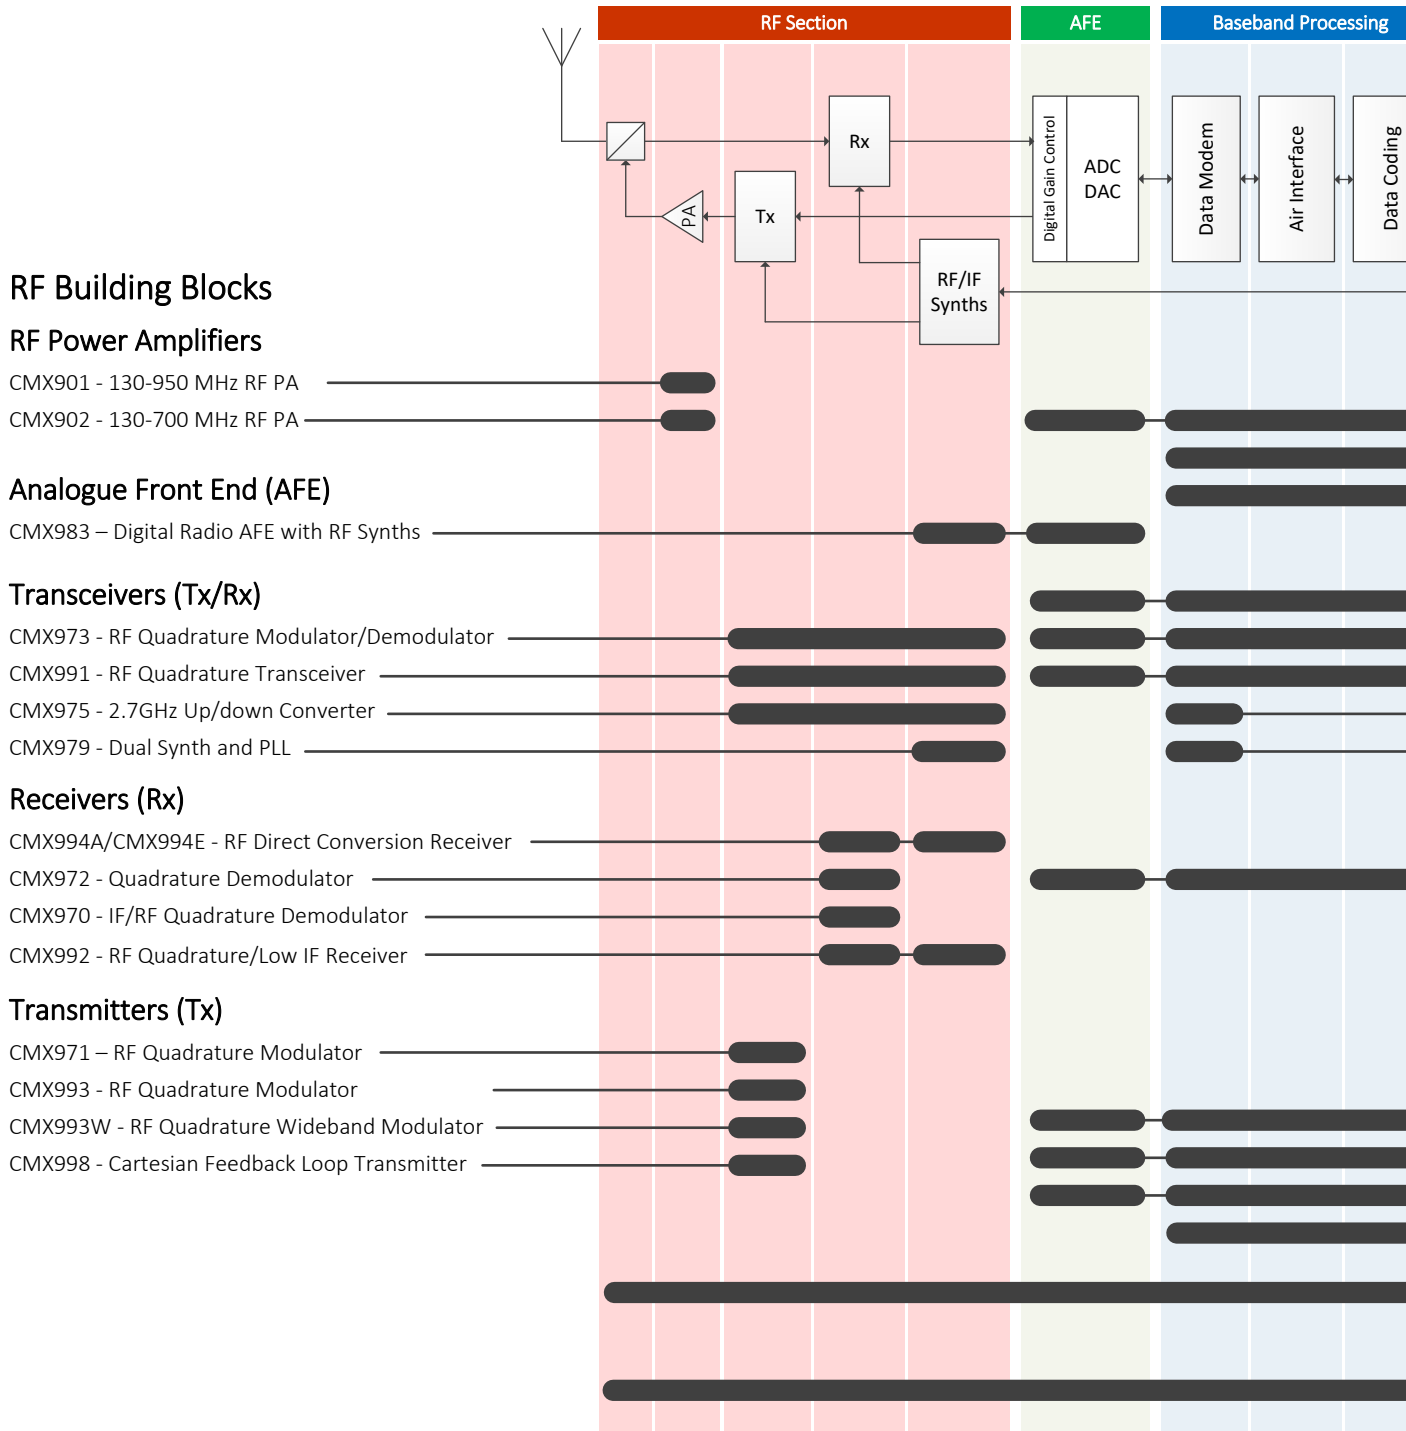

- PMR / LMR
- Marine
- Aviation
- Packet Radio
- Satellite
- Railways
- Ham Radio
- 2.4GHz Licence Free
- Military
- Intercomms
- Elevator Comms
- Home Automation
- Wireless Data
- IIOT
- M2M
- Paging
- Security /Alarm Systems
- Health Care
- EPOS
- Positioning
- Asset Tracking
- Control Systems
- Crane control
- VOIP
- Digital microphones
- Access Control
- Door Entry
- Gate Entry
- Warden Control
- Information Systems
- DTMF

Design, Manufacture, Supply

CML Microcircuits is a world-leader in the design, development and supply of low power, innovative RF, Wireless Data and Digital Voice solutions into the global community.

EV9830
Digital Radio AFE Processor

DE9941
Linear Modulation Radio

SCT9366D
DMR Design Reference

PE0101-7011
Digital Voice Encryption

EV9011
RF Power Amplifier

low-power analogue, digital and mixed-signal semiconductors. CML delivers solutions to the communications industry, focusing on high quality, flexibility and product longevity.

Digital Two-way Radio Processing

- CMX7241/CMX7341 - Common Platform PMR Processors
- SCT3258 - DMR/dPMR Processor + embedded Vocoder
- SCT3268 - DMR/dPMR Processor + embedded Vocoder + ARM

Wireless Data Packet Modems

- CMX7164 - Multi-mode Modem (IQ)
- CMX7163 - QAM Modem (IQ)
- CMX7143 - Multi-mode Modem (LD)
- CMX469A - FFSK/MSK Modem
- CMX589A - GMSK/GFSK Modem

Digital Voice

- CMX655D - Ultra-low Power Voice Codec
- CMX7011 - Voice Encryption Processor
- CMX7261 - Multi-transcoder
- CMX608 - RALCWI Vocoder
- CMX618/CMX638 - RALCWI Vocoder
- CMX7262 - TWELP Vocoder

Marine Communications

- CMX910 - AIS Class A Baseband Processor
- CMX7032/CMX7042 - AIS Class A/B Transceiver + exactTrax™
- CMX7045 - AIS SART Processor
- CMX885 - Marine VHF Audio and DSC processor
- VDES1000 - Complete Marine VDES SDR solution

2.4GHz Licence Free Digital Voice and Data Transceiver

- SCT2400 2.4GHz Digital Voice and Data Transceiver

SCT9389
DMR Design Reference

EV6550D
Ultra-low Power Codec

EV9942
Direct Conversion Receiver

EV9730
RF Quadrature Modulator/Demodulator

VDES1000
Maritime VDES Solution

Key Values

CML offices in UK, Singapore and USA providing Sales, Marketing and Technical support

Global distributor network supporting customers locally

High integration, low power operation, high performance, low risk

CML design and manufacturing ISO 9001: 2015 certified

100% testing ensuring high quality/reliability products

High integration and high performance reduces overall system size and cost

Low power operation by design, a key factor in battery powered systems

Application Specific Standard Products (ASSP)
Semi-custom and custom products

50 years in the communication semiconductors Industry
